WORK EXPERIENCE

UI Developer   June 2024 - Present
Globussoft Technologies   *Bhilai, Chhattisgarh*
- **Worked on real-world projects** involving landing pages, dashboards, and product interfaces under tight deadlines.
- Worked on designing professional email templates for emp monitor, PowerADs Spy , Power dao , focusing on clear communication, brand consistency, and compatibility across email clients.

Process Data Executive (Intern)   Jan 2024– Jun 2024
AugTech Next Wealth   *Noida, Uttar Pradesh*
- DeepUnderstanding of AI/ML: I possess a strong foundation in Artificial Intelligence and Machine Learning, with a focus on their applications in picture annotation and data processing.

PROJECTS

Qr-Generator — Html/Css,Javascript, Bootstrap. | *01/2025–Present*
- At Globussoft, I'm currently working on a QR Generator web application. I have successfully completed the design and development of the admin dashboard, which includes functionalities to manage generated QR codes, user activity, and customization presets. The dashboard is built with a clean, responsive interface using HTML, CSS, JavaScript, and Bootstrap. I'm now actively working on the user-facing frontend, focused on enabling real-time QR generation with customizable inputs and download options. This project is enhancing my skills in dashboard structuring, dynamic UI behavior, and scalable front-end architecture.

PowerAdSpy — React,Html/Css,Javascript, Bootstrap. | *12/2024–Present*
- Contributed to the PowerAdSpy platform by enhancing the frontend using React, HTML, CSS, and JavaScript. I fixed multiple UI issues, improved responsive design, and handled API . In addition to UI work, I also designed and developed marketing email templates for various offers, ensuring responsive layout, clean design, and compatibility across major email clients. This project strengthened my experience in component-based development, real-time UI handling, and crafting professional-grade email communication tools.

Tipeejar — Html/Css,Javascript, Bootstrap. | *10/2024–01/2025*
- At Globussoft, I was responsible for designing and developing the complete admin panel and portions of the user dashboard for a digital tipping platform. I created intuitive, responsive interfaces using HTML, CSS, JavaScript, and Bootstrap, with a strong focus on functionality, usability, and clean layout. The admin panel includes features for managing users, transactions, and platform content, while the dashboard offers a smooth and accessible experience for end users. Additionally, I designed professional email templates for essential user flows such as welcome emails, password reset, and forgot password notifications. This project helped me enhance my skills in scalable UI development, responsive design, and real-world product communication.

Djfy — Html/Css,Javascript, Bootstrap. | *07/2024–08-2025*

- I contributed to enhancing the user interface of an existing music platform project. I focused on improving the overall design layout, responsiveness, and visual appeal to deliver a more engaging and modern user experience.
- I refined various sections of the site to ensure better usability and consistency across devices. This upgrade helped improve the frontend's visual quality and user interaction without affecting core functionalities.
- I worked on upgrading the UI of DJFY, a music platform, by enhancing layout, responsiveness, and visual consistency using HTML, CSS, JavaScript, and Bootstrap to improve overall user experience.   djfyapp.com/

Bible Book Of JOB — Html/Css,Javascript, Bootstrap. | *07/2024–08-2025*
- As part of my ongoing role at Globussoft, I designed and developed a fully responsive website for the Bible Movie's "Book of Job" project. This was my first live project, where I handled the complete front-end using HTML, CSS, JavaScript, and Bootstrap, focusing on clean UI and cross-device compatibility. In addition to the website, I also created promotional email templates aligned with the project's theme, ensuring consistent branding and responsiveness across major email clients.   biblemovie.com.au/18Job

Personal Portfolio — HTML,CSS,Javascript,Tailwind | *2023-Present*
- It is my personal portfolio web page where user can find things about myself and connect to me. . https://saurav-portfolio-psi.vercel.app/

TECHNICAL SKILLS

- **Programming Languages**: HTML/CSS, Java Script, MySQL, React.Js, Bootstrap, Tailwind

- **Miscellaneous Technologies** : Figma ,Fig Jam, Adobe Premier Pro,

- **Skills Cs Core** :Digital Logic ,OOPS
